Sir:

NOTICE OF ART

Applicants' counsel in a telephone conference with the Examiner on December 12, 1988 mentioned that he recently received an Israeli action on 8 December 1988 and would send the art mentioned after studying same, although the art appeared to be cumulative to that already cited in the U.S.A.

Applicants accordingly send in the following which was sent from Israel IL 51074, p.677, dated May 30, 1980; IL 55254, p.202, dated March 31, 1985 and the claim therefrom.

IL 51074 appears to be comparable to U.S. 4,179,507 (Stenlake et al) and IL 55254 appears to be comparable to either already cited Savarese patents 4,192,877 or 4,235,906. It should also be noted that U.S. Patent 4,701,460 also examined by the present Examiner, previously pending as U.S.S.N. 694,908, filed January 25, 1985, which Serial No. 694,908 was previously called to the Examiner's attention in February 5, 1987 response
